

Inspiring Children to Read for Pleasure

Free digital resources available for parents, teachers and children

Reading can come in various forms and our digital resources have widened the appeal of reading, so even those 'reluctant readers' can find something that they can enjoy.

We have a comprehensive selection of digital resources available for teachers, parents and children to use to support Reading for Pleasure from the comfort of the classroom or from home.

In the classroom why not... 'jump the queue', avoid overdue charges and download an eBook from BorrowBox to a tablet or smartphone and share with the class?

Listening to books can also inspire interest, you can download an eAudio book from BorrowBox or RBDigital.

If you are struggling to engage with some children, why not try an eMagazine? Short articles and great photographs or illustrations, might just persuade even the most reluctant child to read. eMagazines are available free of charge via RBDigital and PressReader.

All these services are free to Derbyshire Library customers. There are no request or overdue fees. You can join the library online, or by visiting your local library.

Don't forget that you can take the class to visit their local library. If you would like to arrange a visit, please email ask.library@derbyshire.gov.uk
